Introduction to Algeblocks Algebra Lessons	v
Algeblocks Overview	vi
Getting to Know the Blocks	x
Algeblocks Pretest	xi
About Pretest Forms	xix
Pretest Answer Key & Student Summary	xx
Pretest Student Action Plan	xxi
Algeblocks Posttest	xxiii
About Posttest Forms	xxx
Posttest Answer Key & Student Summary	xxxii
Posttest Student Action Plan	xxxiii
Unit 1: Introducing Algeblocks	1
Lesson 1-1 What Do All the Blocks Mean?	2
Lesson 1-2 Reading the Blocks	4
Lesson 1-3 Writing Expressions for Groups of Blocks	6
Lesson 1-4 Using Blocks to Model Expressions	8
Lesson 1-5 Review and Mixed Practice	11
Unit 2: Adding Integers	15
Lesson 2-1 Modeling Integers on the Basic Mat	16
Lesson 2-2 Adding Positive and Negative Integers	18
Lesson 2-3 Finding the Opposite of an Integer	20
Lesson 2-4 Making Zero Pairs on the Basic Mat	22
Lesson 2-5 Using Zero Pairs to Add a Positive Integer	24
Lesson 2-6 Using Zero Pairs to Add a Negative Integer	26
Lesson 2-7 Problem-Solving Application: Integer Addition	28
Lesson 2-8 Review and Mixed Practice	30
Unit 3: Subtracting Integers	33
Lesson 3-1 Subtracting Positive and Negative Integers	34
Lesson 3-2 Using Zero Pairs to Subtract Positive Integers	36
Lesson 3-3 Using Zero Pairs to Subtract Negative Integers	38
Lesson 3-4 Using Opposites to Subtract Integers	40
Lesson 3-5 Review and Mixed Practice	42
Unit 4: Multiplying and Dividing Integers	45
Lesson 4-1 The Factor Track: Multiplication as Area	46
Lesson 4-2 Multiplying Positive Integers on the Quadrant Mat	48
Lesson 4-3 Multiplying Positive and Negative Integers	50
Lesson 4-4 Multiplying Negative Integers	52
Lesson 4-5 Modeling the Distributive Property of Multiplication	54
Lesson 4-6 Modeling Integer Division	56
Lesson 4-7 Factoring Integers	58
Lesson 4-8 Problem-Solving Applications: Products and Quotients	60
Lesson 4-9 Review and Mixed Practice	62

Contents

Unit 5: Expressions with Variables	65
Lesson 5-1 Modeling Polynomials on the Basic Mat	66
Lesson 5-2 Adding Polynomials	69
Lesson 5-3 Finding the Opposite.....	71
Lesson 5-4 Subtracting Polynomials	73
Lesson 5-5 Multiplying Monomials	75
Lesson 5-6 Multiplying Binomials	77
Lesson 5-7 Review and Mixed Practice	79
Unit 6: Linear Equations in One Variable	81
Lesson 6-1 Modeling Equations on the Sentences Mat.....	82
Lesson 6-2 Using Addition to Solve Equations	85
Lesson 6-3 Using Subtraction to Solve Equations.....	87
Lesson 6-4 Using Division to Solve Equations.....	89
Lesson 6-5 Solving Two-Step Equations	91
Lesson 6-6 Variables on Both Sides.....	93
Lesson 6-7 Problem-Solving Applications: Linear Equations.....	95
Lesson 6-8 Review and Mixed Practice	97
Unit 7: Dividing Variables	99
Lesson 7-1 Dividing Monomials.....	100
Lesson 7-2 Dividing Binomials.....	103
Lesson 7-3 Extending Division.....	106
Lesson 7-4 Greatest Common Factor with Variables.....	109
Lesson 7-5 Factoring Binomials	111
Lesson 7-6 Factoring Trinomials.....	114
Lesson 7-7 Patterns in Factoring Trinomials, Part 1	117
Lesson 7-8 Patterns in Factoring Trinomials, Part 2	119
Lesson 7-9 Review and Mixed Practice	121
Unit 8: Related Topics	125
Lesson 8-1 One-Variable Inequalities	126
Lesson 8-2 Modeling Polynomials.....	128
Lesson 8-3 Adding and Subtracting Polynomials	130
Lesson 8-4 Patterns with Perimeter and Area.....	132
Lesson 8-5 Patterns with Volume	134
Lesson 8-6 Review and Mixed Practice	136
Glossary	138
Algeblocks Mats	
Basic Mat	140
Mini Basic Mats	141
Quadrant Mat.....	142
Mini Quadrant Mats	143
Sentences Mat	144
Mini Sentences Mats	145
