

**Measure for Measure Video Set**

Our society measures everything from a pound of cookies to the length of a football field to the heat of our bodies. Investigate the tools mankind has employed to measure the universe throughout time. See how our measuring mania has affected society. This three-video set covers the topics of weight, length, and temperature. 78 minutes.

**M6-40465** Set of 3 videos **\$129.95**

**Measurement and Scale Learning Pack**

Explore the similarities and differences between the metric and US Standard systems of measurement. Students will gain a greater understanding of the use of units in measurement and scale by completing fun activities, such as determining how much smaller they are than the Statue of Liberty! Learning Pack includes a CD-ROM, a Teacher's Guide, 30 student worksheets, and a 26-minute video, *Measurement and Scale*. Grades 3-6.

**M6-49503** Measurement and Scale Learning Pack **\$99.95**  
**M6-42761** Measurement and Scale Video **\$59.95**

**Patterns, Symmetry, & Beauty**

Beauty is in the eye of the beholder, they say. Philosophers and mathematicians from the past and modern-day artists ponder what people find beautiful and why. Students contemplate diverse ideas of beauty in paintings, architecture, music, and the natural world. 26 minutes. Grades 6 and up.

**M6-40466** **\$59.95**

**Basic Word Problems Video**

Take a close look at solving a variety of word problems with this helpful video. Includes a reproducible Student Workbook. 63 minutes. Grades 5-9.

**M6-6351** Set **\$39.95**

**Basic Number Concepts Video**

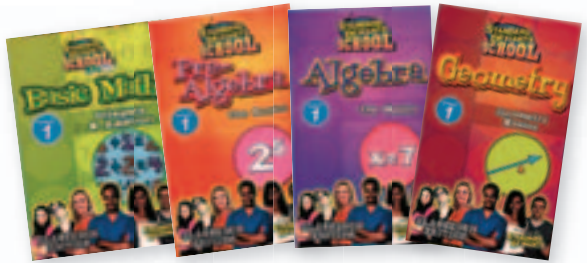

Comparing equivalent fractions, rounding decimals, applying concepts of exponents, and finding the GCF are covered. Includes a reproducible Student Workbook. 46 minutes. Grades 5-9.

**M6-6352** Set **\$39.95**

**Basic Geometry Video**

Figures, areas, perimeters, volumes, angles, and coordinate points are covered. Includes a reproducible Student Workbook. 62 minutes. Grades 5-9.

**M6-6356** Set **\$39.95**

**Standard Deviants Videos**

Zoom in on one subject area at a time with each of these single-topic videos. Each program is 10-26 minutes long and contains funny skits, computer graphics, and mnemonic devices to help students to remember the material. Co-written and reviewed by professors from leading universities, these topic-based videos were designed to reinforce your lesson, without dominating class time.

**M6-42931** Basic Math Set of 10 **\$279.95**  
**M6-42933** Pre-Algebra Set of 6 **\$179.95**  
**M6-42930** Algebra Set of 7 **\$209.95**  
**M6-42932** Geometry Set of 6 **\$179.95**

**Buy the set and save – an \$849.80 value!**

**M6-46071** Set of 4 **\$829.95**

**Exploring Plane Geometry Videos**

Use real-world examples to examine plane geometry through an exceptional blend of computer animation and live action. All aspects of plane geometry are covered, including properties of shapes, relationships among shapes, perimeter, and area. Videos can be used as a classroom supplement or to help students at home. Grades 5-10.

**M6-8953** Set of 3 Videos **\$94.95**

**Set includes the three videos below.**

**M6-8954** Basic Concepts, Lines and Angles **\$34.95**  
**M6-8955** Symmetry, Triangles and Polygons **\$34.95**  
**M6-8956** Circles, Perimeter and Area **\$34.95**

**One-to-One Basic Math Videos**

On-screen tutor and accompanying worksheets help struggling students build confidence and give motivated students an extra edge! Four-video series includes *Operations with Positive and Negative Numbers; Fractions; Decimals; and Percents*. Grades 5 and up.

**M6-6429** Set of 4 **\$169.95**
